Director, Charter
Communications

Reggy Robinson
Vice President,
Regulatory Affairs,
Freddie Mac

15TH ANNIVERSARY EDITION

In 2018, the Bridge Partners team celebrated our 15th anniversary.

The firm was founded in 2003 by Partners who previously worked together at a major international search firm, where we created and ran the Diversity-Inclusion practice. Our goal was to build a minority-owned search firm with a reputation for

maintaining high-quality relationships and delivering superior results in the execution of our assignments, all the time with a focus on diversity-inclusion-equity in our own team and culture, as well as our search work.

We are proud of what we have built and are honored to work with some incredible clients. We have shared just some of those partnerships below.

About Bridge Partners

Bridge Partners is a retained executive search firm with unique expertise in attracting and retaining senior, diverse executives.

Clients include major corporations, nonprofits, public sector, and entrepreneurial organizations across the US and around the world. What they have in common is a desire to adapt to a changing global market and diversify their leadership teams in order to reflect their employee base, as well as the constituents they serve. They retain Bridge Partners to leverage our innovative search approach and our track-record of presenting the highest caliber executives.

Diversity-Inclusion

Diversity-inclusion is not an “initiative” for us. It is what we do.

As a minority-owned business, our team reflects a commitment to diversity in all its forms, embedding this core value in every aspect of our own culture and practice.

We have grown our business based on the knowledge that a diverse leadership team is critical to our clients – not just to reflect employee base, clients and constituents served, but also to encourage innovation and progressive decision-making.

We have a proven track record of building effective leadership teams by:

- Providing a higher level of service, embedding diversity and inclusion into every aspect of our client work
- Raising the degree of expectation regarding inclusion in our candidate slates
- Partnering with clients to ensure they gain access to the very best executives in the marketplace, remaining focused on ability as the top priority, regardless of race, gender, or any other defining characteristics
